drive in beauty

Mission Statement

The mission of the McKinley County DWI Program is working to overcome the challenges associated with alcohol use disorder to create a safer community.

LDWI Program Components

The local DWI Program in McKinley County implements four proven components to address DWI and alcohol use disorder, focusing on multiple strategies for greater impact in the community.

- Community Wellness & Outreach
- Treatment
- Alternative Sentencing
- Program Administration

Prevention

The McKinley County DWI Program implements prevention activities using program staff, in partnership with other entities in the community. Prevention activities are evidence-based or promising practices.

Botvin Life Skills is a validated substance use prevention program that reduces the risk of alcohol, tobacco, drug use, and violence. The program equips adolescents and youth with skills to navigate challenging situations confidently.

Boys Council offers structured support groups for boys aged 9-18, aiming to enhance their natural strengths and increase their options about being male in modern society.

Girls Circle is a program for girls aged 9-18 that combines relational theory, resiliency practices, and skill training to enhance positive connections, personal strengths, and competence.

DWI Program Prevention Specialists

Conducts regular visits to schools & chapter houses in McKinley County aim to raise awareness about alcohol use prevention and DWI. To learn more or schedule a prevention presentation, you can contact our program's prevention specialist.
